

## Clever Solutions for Flooring

### ACRYLIC [MMA]

### POLYURETHANE

### EPOXY SELF LEVELING

### EPOXY COATING

#### Acrylic [MMA]

##### Clean and Hygienic

- Sealed, seamless surface
- Resistant to acids, greases, oils, salts and more
- Easy to maintain

##### Safe

- Non-slip Surfaces
- Wear and abrasion-resistant
- Resistant to heat and cold

##### Quick and beautiful

- Fully loaded-bearing after 2 hours; no disruption to operations during renovation!
- Easy to apply, even at temperatures below zero
- Wide selection of attractive colors

#### Polyurethane

##### Smooth & Hygienic Floor System The Food & Beverage Industry Choice

##### Benefits:

- Tough and Hygienic
- Tolerant of Substrate Moisture
- Will not support bacterial growth
- Easy to clean (Can be steam cleaned)
- Meets EU requirements for food plants
- Extremely tough and hard wearing
- Highly impact and thermal shock resistant
- Good resistant to almost all chemical
- Dusting free
- Resists organic acids, dilute, mineral acids, and animal fats.

#### Epoxy Self Leveling

##### Universal Products: Economical and long lasting

##### Benefits:

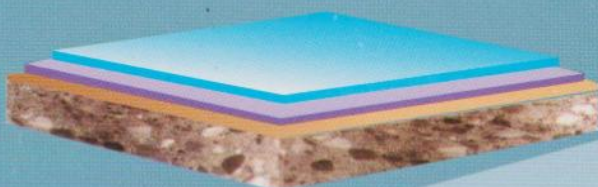

- Extremely smooth & self leveling
- High Chemical resistance
- Hygienic, Low odour
- Smooth or anti-slip finish
- High abrasion resistance
- Seamless, non porous, liquid tight
- Smooth and anti-slip systems
- Available in Multi color range

#### Epoxy Coating

##### Low cost surface protection with enhanced performance

##### Benefits:

- Low odour during application
- Protects and hardens surface
- Hard wearing
- Suitable for forklifts traffic
- Anti-slip
- Seamless
- Warehouse

# FLOOR ADVANTAGES

## Hygienic

Our floors are non-porous and seamless floors, no chance of bacterial growth can take place.

## Anti-Skid Floor

Avoid total accident on wet and oily floors and good resistance against wear & tear.

## Load Bearing

The floor is designed for mechanical abrasion and chemical attack.

## Repairable

Our floors can be repaired faster and easily.

## Easy to Clean

Due to its non-porous characteristics, water, dirt and bacteria will remain on the surface not sticking to the floor.

## Durable

Our floor provides years of service with limited maintenance, low life-cycle cost.

## Temperature

Our coating can be done at 0°C to-25°C without any problem.

## Looks

Any colour combination and designs are possible.
